Attachments: SERAS-222-DQAPPR3-081814.pdf

Rob and Bill,

Find attached the revised QAPP for the Dioxin investigation at RM 10.9 that includes the sampling at 80 Lister Ave and Givaudan cell. We plan to go out in September but we are still working out the access to the Givaudan cell. Please let Karyllan know that I sent you the QAPP, thanks.
